[REDACTED]

In my last letter to you I mentioned that I would try to obtain the release of some old information pertaining to Voronezh Airframe Plant No. 64. Since then permission has been granted to relay the data to you, but I also have been told that [REDACTED] has received it! Perhaps, therefore, the following will be no surprise to you, but I still will send it on for whatever it is worth. 25X1X7

Some time during the last half of March 1957, nineteen aircraft (probable Badgers from the description [REDACTED] were noted on the factory airfield at Voronezh. One of these aircraft had the 25X1B4d

[REDACTED]

If you already have received this data, the difference in our estimated total production at this plant probably is a result of different interpretations. 25X1B4d

25X1B4d

It is really a shame that you aren't visiting us right now. We have had a warm spring and the city is going through its most beautiful period. All the trees that aren't blooming are "greening up", and the cherry blossoms, for a change are out in time for the festival this weekend. Don't you think you should hurry down here for special consultation?

Getting back to business, I do hope the above information will be of use to you.

Sincerely,

Distribution:
